

Reach for the sky

Radio Version

Music: Frank Zumbroich

Lyrics: Frank Zumbroich/Sean P. Adams

GEMA-Werk.-Nr: 10108051-001

Published by Edition Supernatural – Sony ATV Music Publishing Germany

What was once just but a dream
Has now become a reality
And everything that we long to be
Has come true for you an me

'cause every day and every night
The major challenge is our call
And now we finally see the light
And now we want to take it all

Reach for the sky
Spread your wings and learn to fly
It's the chance of your lifetime
So don't lose heart
You can make it if you want it now
Right from the start

Reach for the sky
Spread your wings and learn to fly
Just believe in yourself
To make it all come true
Tonight it's up to you
So let your dream come true

Oho Oho

We have waited for all our lives
To be here performing just for you
Just to live in the best of times
And to make them all come true

Every day and every night
We hold on to our dream
We keep the faith to see the light
There's nothing in between

Reach for the sky
Spread your wings and learn to fly
It's the chance of your lifetime
So don't lose heart
You can make it if you want it now
Right from the start

Reach for the sky
Spread your wings and learn to fly
Just believe in yourself
To make it all come true
'cause tonight it's up to you
So let your dream come true

You will know you've made your choices
You're gonna live your life today
Gonna capture the moments feeling
And never let it slip away

Reach for the sky
Spread your wings and learn to fly
It's the chance of your lifetime
So don't lose heart
You can make it if you want it now
Right from the start

Reach for the sky
Spread your wings and learn to fly
Just believe in yourself
To make it all come true
'cause tonight it's up to you
So let your dream come true

Oho Oho Oho Oho.....

Just believe in yourself
To make it all come true
'cause tonight it's up to you
So let your dream come true
